Dear Lord Gibson,

The Ministry of Health understands LNBN Investment LLC works directly in conjunction with SFBBL International Finance and the SEED Foundation, a non-profit humanitarian organization founded to help the people of the world.

The Ministry of Health, Belize is interested in being a beneficial body, The SEED Foundation which is a registered 501(C)(3) non-profit entity capable of providing donors with tax deductions, with direct involvement is responsible for overall reduction of transport and construction costs. A future sovereign tax credit offering will be generated with the development of 'eco-villages', and hospitals. This will give 'carbon credits' which will be created by virtue of village operations.

The Ministry of Health, Belize understands the European Union is fully supportive of LNBN's request for donations in the form of equipment, materials, shipping and financial assistance. Global interest has further motivated LNBN to consult with urban planning firms as to expedite project development in conjunction with their partners, Avis Global Energy.

We understand the SEED Foundation can provide a complete explanation precisely detailing all necessary materials needed to construct an LNBN Investment model village, Hospitals and schools inclusive of a list of donors and special tax exemption forms to be used by U.S. and European contributors.

The Government of Belize in its Manifesto 2015 under the Ministry of Health had a projected plan of building two new Hospitals, one in Punta Gorda Town and one in San Pedro Town on an approximate cost of Fifty Million Dollars (\$50,000,000.00). We look forward in working with LNBN LLC and its partners in achieving these goals. Furthermore, we would also consider a loan from LNBN LLC if we cannot meet the requirements.

Thank you in advance for your consideration and look forward to a collaborative cooperation.

Sincerely,

HON. PABLO MARIN
MINISTER OF HEALTH
